Technical Data Sheet

Disposable Nitrile Gloves

M5.0g SIZE: S/M/L/XL

Disposable nitrile gloves are made of nitril, latex-free, and have better puncture resistance and abrasion resistance. It fits the hand very well, provides hand sensitivity and flexibility, and enhances durability. Since nitrile gloves have anti-puncture and anti-allergic properties, it can be widely used in food processing, pharmaceutical manufacturing, laboratory analysis, chemicals Handling, cleaning protection, electronic component sets and more

Food & Catering | Healthcare | Beauty | Cleaning | Manufacturing | Chemical Industry

BENEFITS

Latex free formulation, no natural rubber protein.

Micro textured surface for secure grip.

Super soft and fatigue free.

Highly resistant

QUALITY STANDARD

CE

ISO13485/EN455

REACH/Rohs

Storage

Store in a well-ventilated indoor area with relative humidity not exceeding 80%, free from corrosive gases.

PRODUCT

100pcs/box, 10boxes/carton

Package dimension:

Innerbox:230*125*65mm; Carton:345*258*240mm.

Disposable Nitrile Glove M5.0g	
Length (mm)	Minimum 230 mm
Thickness (mm)	
Cuff (mm)	Minimum 0.05 mm
Palm (mm)	Minimum 0.08 mm
Finger (mm)	Minimum 0.06 mm
Tensile Strength (Mpa)	
Before aging	Minimum 15 MPa
After aging	Minimum 14 MPa
Elongation (%)	
Antes de envejecer	Mínimo 500%
Después de envejecer	Mínimo 400%
Width (+/-10 mm)	S=80mm; M=95mm; L=110mm; XL=120mm
Weight (+/-10 mm)	S=5.0; M=5.5; L=6.3

GLOVE ATTRIBUTES	
Design	Ambidextrous, non sterile, beaded cuff
Color	blue, violet blue, black, white.
Sizes	S, M, L, XL
